Introduction

ABOUT LA MARE COMPANY

We are a manufacturer of houseboats, which has been present on the market since 2010. During this time we have gained not only vast experience, ability to listen to customers and follow their needs and growing expectations. It is also a period of many investments, development of new solutions, implementation of original ideas.

Our houses on water are distinguished by both stability and solidity of construction, as well as exceptional aesthetics and attention to detail. Thus, they can become not only a second home, but also an elegant houseboat for rent, the cost of which will pay off in no time.

NYDALA
HANDLE 004.496.36

BAGGANÄS BLACK
HANDLE 803.384.13

NYDALA
HANDLE 004.496.36

AR+ is a High Gloss HPL with a superior scuff and mar resistance and therefore usable on vertical and horizontal surfaces. Formica's own laboratory tests show remarkable results. It has also been tested externally by LGA Institute with official certification of AR+ superior performance.

Steel wool? Yes, one has to push really hard to get even the smallest scuff on AR+. It is also available in other designs and trendy colours.

AR+ not only performs better in scuff and mar resistance than any gloss HPL product in the market, but it also keeps the gloss level after heavy use. AR+ is a durable high gloss that will make the furniture look newer for longer.

Sanitary wares

SANITARY WARES ARE ESSENTIAL ELEMENTS IN BATHROOM DECORATION, ADDING FUNCTIONALITY AND STYLE TO THE SPACE.

Sanitary wares play a crucial role in bathroom decoration, as they contribute both functionality and style to the space. These essential elements include fixtures like sinks, toilets, bathtubs, and showers, which not only serve practical purposes but also enhance the overall aesthetic appeal of the bathroom.

Electrical Equipment

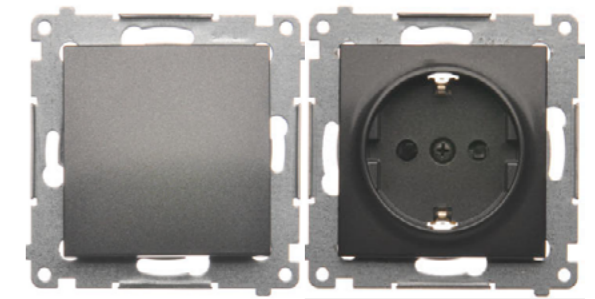

RENEWABLE ENERGY IS THE FUTURE OF POWER GENERATION.

Renewable energy represents the future of power generation, offering sustainable and environmentally friendly alternatives to traditional sources like fossil fuels. With advancements in technology and increasing awareness of climate change, the shift towards renewable energy sources such as solar, wind, hydro, and geothermal power is gaining momentum worldwide. These sources provide clean and inexhaustible energy, reducing greenhouse gas emissions and mitigating the impacts of climate change.
